Car Diffuser

Car diffusers are small devices that are placed into the lighter port on the car. These devices slowly vaporize oils that have been said to provide health benefits and an exquisite aroma which soothes the mind.

As you can see in the graph, the trend for Car diffuser has started to rise upward. So it's a great time to start selling this product.

The trend for car diffusers is showing a sharp rise in Singapore and Australia. There is also a slight upward trend in the USA market but not as good as the other two markets. So you should focus on Australia and Singapore as these both are a ripe market for this product.
