

# Roller Skates, Skateboards & Scooters Trending Product

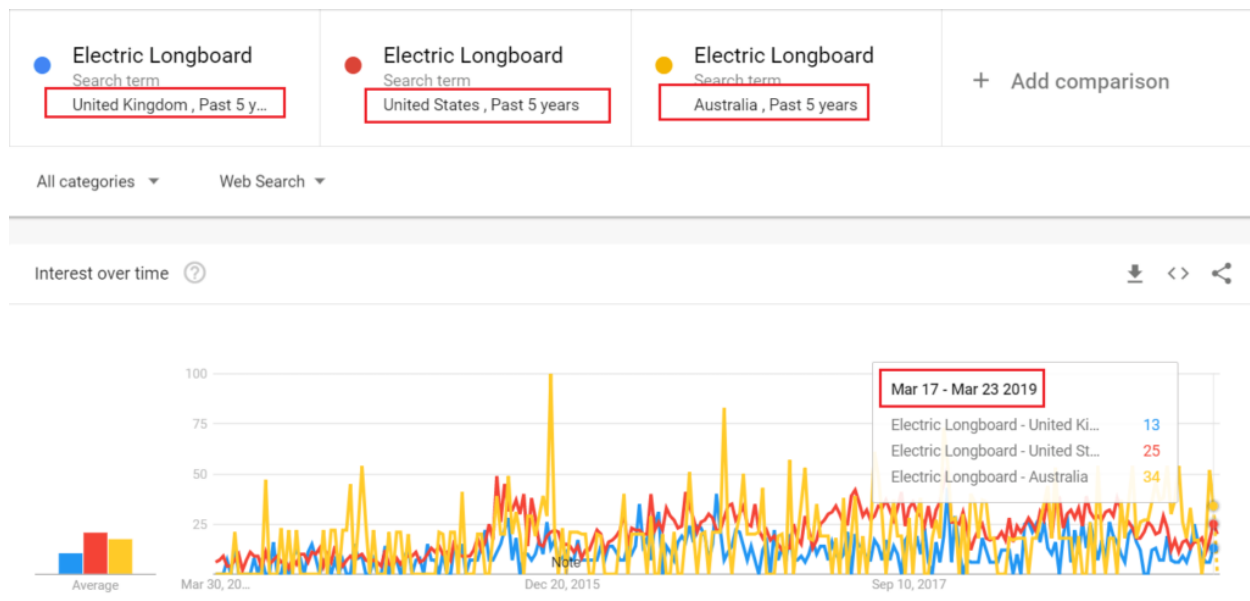

## Electric Longboard

Electric longboards are better than skateboards since they are geared more towards people who want to cruise around while skateboards are designed for tricks and flashy stuff.

Electric longboards are on a decline in worldwide trends. However, in some markets it is still a hot product to sell.

The UK and USA markets are showing a rising trend for electric longboard. It's a great time to sell electric longboard in American and United Kingdom markets right now.

### How to Target Electric Longboard on Facebook
