

Medical Supplies & Equipment Trending Products

Scrub Pants

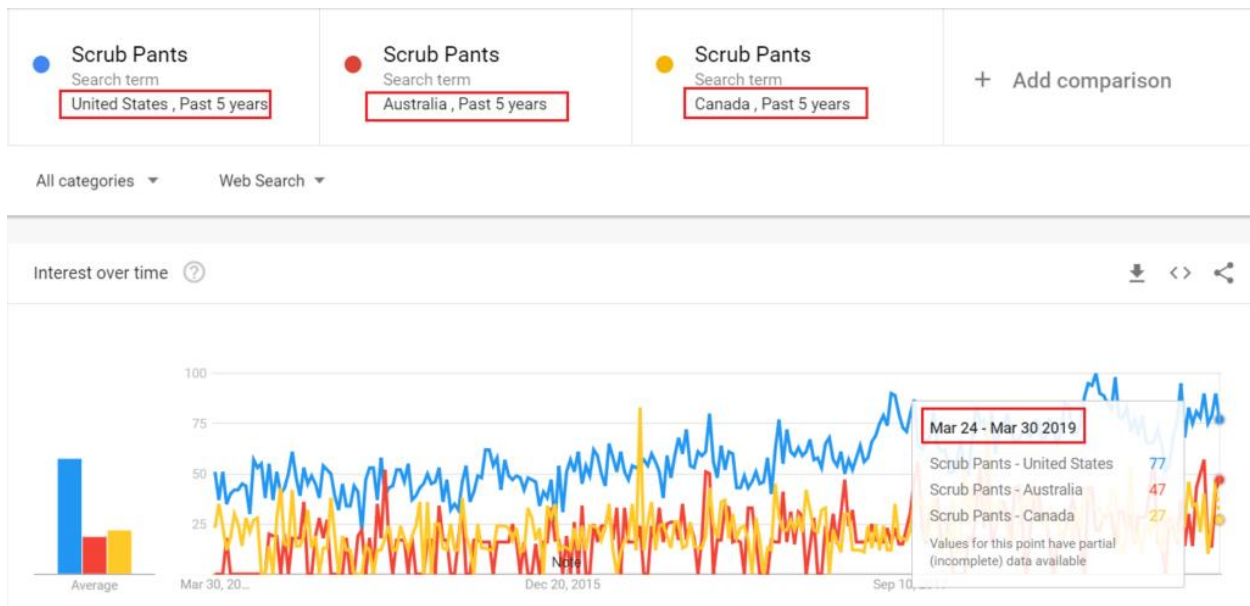

Scrub pants are always on the top since medical professionals like nurses wear these on daily basis.

They are always in fashion for nurses, but even non-medical related people enjoy these comfortable pants.

The worldwide trend graph shows a decline for scrub pants. But wait for regional trends to know its potential.

The Australian market takes the cake when it comes to these pants. While USA and Canada is on a decline.

So, try to market your products in the Australian market only if you are targeting this niche.

Compression Socks

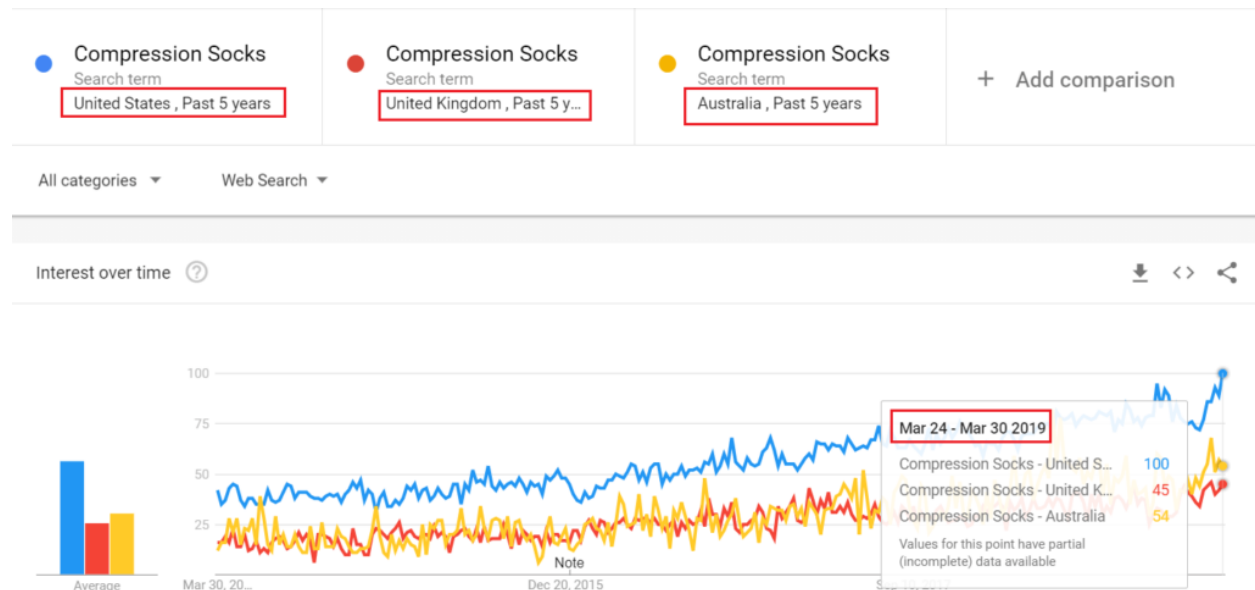

These specially designed socks and stockings help increase the blood flow in your lower legs.

They combat conditions that may cause poor blood flow in the lower legs causing swelling and pain.

Currently, compression socks are showing a downward trend Worldwide.

These medically-designed socks are worn by many people who are suffering or want to prevent such conditions. So, they are mostly in demand in some regions.

The USA market is definitely the best place to sell compression socks. However, The UK market also sees a rise in the trend as well. Australia showed a bit of a decline in the trend.

You can target the USA and UK when selling compression socks to increase the overall sales on your store.
